

CONTINENTAL AG (GROUP)

Hanover - Germany | Manufacture of rubber tyres and tubes; retreading and rebuilding of rubber tyres

Company size: L | Assessment scope: Group

Overall score

➤ 84/100

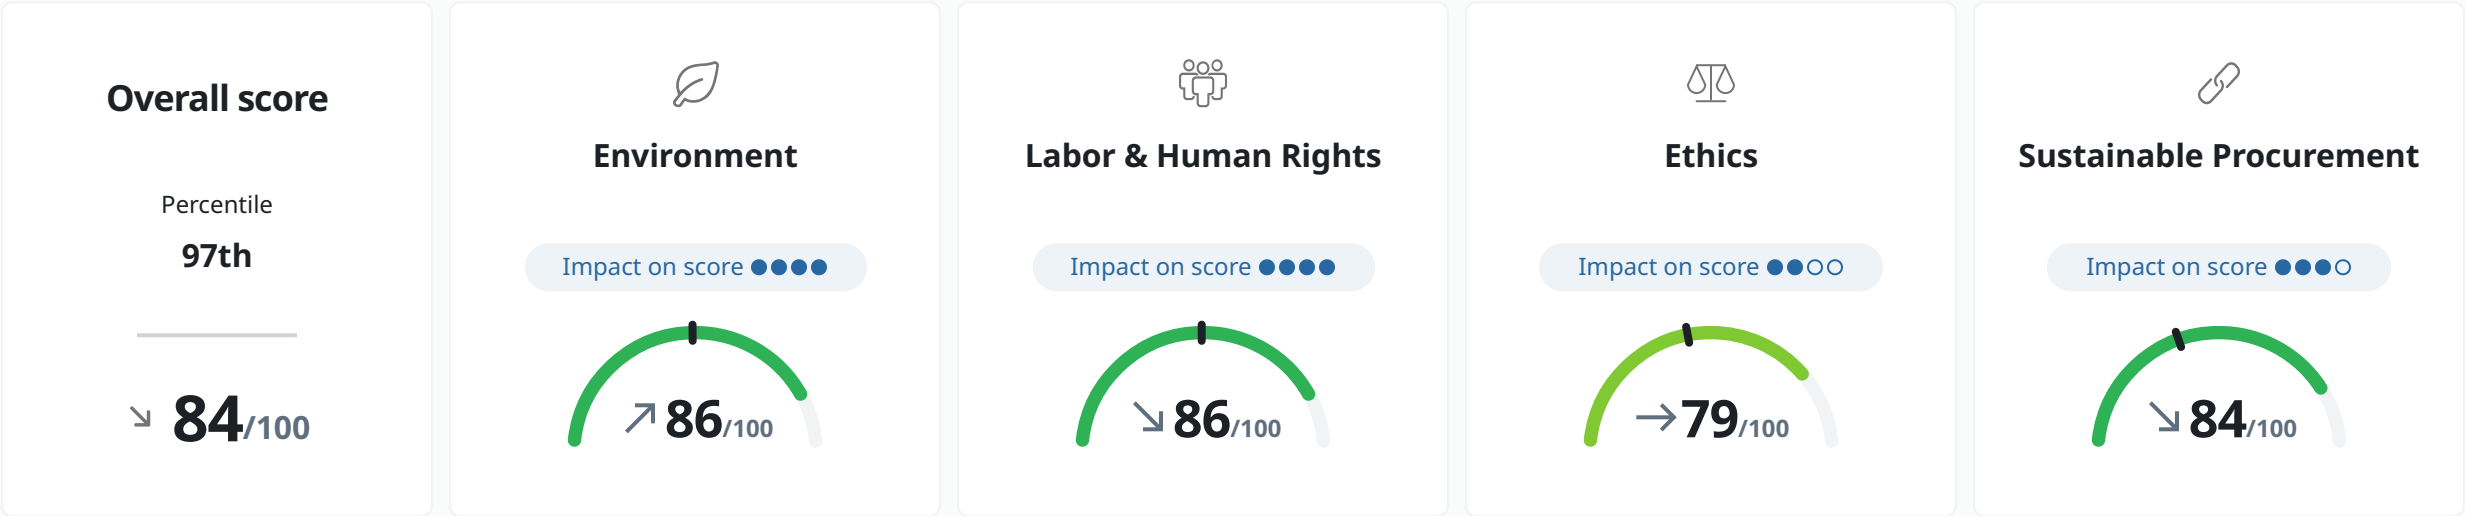

Percentile

97th

Scorecard

Publication date: 30 Jun 2026 Valid until: 30 Jun 2027

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Strengths

Formal mechanisms to review and amend environmental policy
Environmental policy scope of application specified
Dedicated responsibility for environmental policy
Environmental policy on customer health and safety
Quantitative targets set on materials, chemicals, and waste
Quantitative targets set on product end-of-life
Environmental policy on energy consumption and GHGs
Environmental policy on product use
Quantitative targets set on energy consumption and GHGs
Environmental policy on air pollution
Exceptional policy on major environmental issues
Environmental policy on product end-of-life
Environmental policy on materials, chemicals, and waste
Quantitative targets set on air pollution

Environment | Endorsements

Impact on score ●○○○

● → 100/100

Endorsements are your company’s public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Strengths

Affiliate or Supporter of the Responsible Business Alliance (RBA)
Endorsement of the Global Platform for Sustainable Natural Rubber (GPSNR)
Endorsement of the Science Based Targets initiative - Targets Set
Endorsement of the United Nations Global Compact (UNGC)

Environment | Measures

Impact on score ●●●●

● ↗ 100/100

Measures are your company’s actions to support your sustainability policies and commitments.

Strengths

Awareness program offered to customers regarding product/service health & safety issues
Improvement of energy efficiency through technology or equipment upgrades
Use of carbon capture and storage technology (CCS)
Work processes or technologies implemented to mitigate emissions of VOC, SO2, NOx or heavy metals
Reduction of material consumption through process optimization
Use of eco-friendly or bio-based process materials
Environmental emergency measures in place
Actions for labeling, storing, handling and transporting hazardous substances
Training employees to safely handle and manage hazardous substances
Use of alternative, less hazardous substances in operations
Reduction in generation or toxicity of hazardous substances or waste
Reduction in the release of Tire and Road Wear Particles (TRWP)
Collaboration with external stakeholders for product end-of-life management
Provision of information on proper disposal of product to promote circular material flow
Take-back or buy-back program to collect product for remanufacture, recycling, or safe disposal
Actions to prevent emissions of atmospheric pollutants and other environmental nuisances (e.g. noise, odor, vibration, road and light)
Specialized treatment and safe disposal of hazardous substances or waste
Recovery and reuse of materials from company operations
Purchase and/or generation of renewable energy
Training of employees on energy conservation/climate actions
Fuel switch to achieve higher energy efficiency and/or lower carbon emission intensity
Dedicated feedback channel on health & safety issues of products
Climate change recovery and adaptation plan in place for the company's operations
Climate change physical risk and impact assessment in place for the company's operations
Company-specific emergency preparedness and response procedure regarding customer health and safety
Studies on product environmental impact
Design aimed at reducing resource input required for product use
Design features for easy disassembling, remanufacturing, or recycling of products
Mapping of waste streams
Reduction of internal wastes through material reuse, recovery or repurpose
Internal sorting & disposal of waste according to waste streams
Training of employees on waste reduction and sorting

Improvement areas

Low priority	No supporting evidence of use of waste heat recovery systems or combined heat and power units
Low priority	No supporting evidence of an information on efficient use, storage, and maintenance to extend product life
Low priority	No supporting evidence of an optimization of primary packaging to reduce its dimensions, weight, or simplify material mix

Environment | Certifications

Impact on score ●●●○

● → 100/100

Certifications confirm your compliance with international standards (for example, ISO 14001, ISO 45001, ISO 37001, SA8000 or FSC Chain of Custody). They must be issued by an external certification body.

Strengths

Environmental management system certification covers between 51% and 75% of the assessed scope
Specific environmental certification
ISO 14001 certified
ISO 50001 certified

Environment | Coverage

Multiplying factor

● 100/100

Coverage means the level of deployment of measures and certifications throughout your company. It’s a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

Strengths

Supporting documents show an exceptional level of coverage of environmental actions or certification throughout company operations
--

Environment | Reporting

Impact on score ●●●○

● → 75/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

Comprehensive reporting on environmental issues
Reporting on total weight of waste recovered
External assurance or verification of sustainability reporting
Reporting on total gross Scope 3 GHG emissions
Total gross Scope 3 GHG emissions reporting value confirmed in supporting documentation
Reporting on total gross Scope 1 GHG emissions
Reporting on total gross Scope 2 GHG emissions (market or location based)
Reporting in accordance with ESRS Set 1
Company communicates progress towards the Sustainable Development Goals (SDGs)
Company reports to CDP
Reporting on total weight of hazardous waste
Materiality analysis in sustainability reporting
Reporting on total weight of non-hazardous waste
Reporting on total gross Scope 3 downstream GHG emissions
Reporting on total amount of renewable energy consumed
Reporting on total energy consumption
Total gross Scope 3 downstream GHG emissions reporting value confirmed in supporting documentation
Total gross Scope 2 GHG emissions reporting value confirmed in supporting documentation
Total gross Scope 1 GHG emissions reporting value confirmed in supporting documentation
Declares some sites/operations located in or near biodiversity-sensitive areas, but the activities do not negatively affect those areas (not verified)

Improvement areas

Low priority

No supporting evidence of reporting on the total weight of air pollutants

Environment | 360° Watch

Impact on score ●●●●

↗50/100

The 360° Watch Findings indicator is scored based on the data we gather by scanning thousands of sources in the public domain. This allows us to get a broader overview of your company's sustainability management.

Improvement areas

- Medium priority

The 360° Watch has identified at least one significant adverse report regarding customer health & safety.
- Medium priority

The 360° Watch has identified at least one significant adverse report regarding air pollution
- Medium priority

The 360° Watch has identified at least one significant controversy, fine or penalty regarding environmental issues in the last five years (see news with red downward arrow in the 360° Watch section).

Major tire recall started: If you don't want to risk an accident, you should react [DE]

www.chip.de | 13 Dec 2022

The tire manufacturer Continental has an exchange program for numerous products announced. Worldwide, 7,103 tires are affected. In Germany there are 745. The exchange programme is also offered in Austria, Switzerland, Spain, France and Italy. The reason for this is sudden loss of air or a belt edge separation. This can lead to partial or complete loss of the tread. This can pose a danger to drivers and other road users. So far, however, no accidents are known in this context.

Recall alert: Continental Tire recalls nearly 3,000 tires

www.actionnewsjax.com | 09 Dec 2022

Continental Tire and the National Highway Traffic Safety Administration have announced the recall of nearly 3,000 tires because they pose a hazard. The tires in question were overcured and could develop a break in the sidewall, the NHTSA said. If the sidewalk ruptures, the tire could experience sudden air loss and/or tread separation, increasing a chance of a crash.The recall affects only specific tires from the models listed below: 4x4 Contact, size 255/55R19 111V XL PureContact LS, size 215/60R16 95V TerrainContact H/T, size 255/55R20 107H

Continental Launches Product Safety Recall for Certain Tires in Canada

www.lelezard.com

| 22 Oct 2025

Continental has issued a voluntary product safety recall in Canada for 295 CrossContact LX25 passenger tires found in dealer inventories or sold as replacement parts. The recall was initiated after Continental's technical compliance team investigated two market complaints. Affected tires could exhibit excessive noise, vibration, tread bulging, or partial to full tread detachment, which increases crash risks. Although no accidents, injuries, or damages have been reported, Continental is collaborating with national authorities, customers, and dealers to execute the recall. The company will

Recall Program for Continental ProContact GX AO Car Tyres in the Dimension 255/35 R19 96H XL

finlandweekly.com

| 27 Aug 2024

Continental today announced a recall program involving 883 replacement passenger car tyres brought into and sold in the Australian market between November 2023 and August 2024. The recall program was proactively initiated by Continental after its market observation program had shown an increase in warranty complaints connected to this specific tyre. Analysis has shown that the affected tyres may develop a belt edge separation. With continued use,the tyres could experience a partial or full tread/belt loss. This could result in a loss of vehicle control as a safety concern.

No supporting evidence of quantitative target set on career management and training

Low priority

No supporting evidence of quantitative target set on employee health and safety

Labor & Human Rights | Endorsements

Impact on score ●○○○

● → 100/100

Endorsements are your company’s public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Strengths

Affiliate or Supporter of the Responsible Business Alliance (RBA)
Endorsement of the Global Platform for Sustainable Natural Rubber (GPSNR)
Endorsement of the Women's Empowerment Principles (WEPs)
Endorsement of a diversity charter
Endorsement of the United Nations Global Compact (UNGC)

Labor & Human Rights | Measures

Impact on score ●●●●

● → 100/100

Measures are your company’s actions to support your sustainability policies and commitments.

Strengths

Flexible organization of work (eg. remote work, flexi-time)
Communication to all employees of remuneration process (e.g. salary grid, procedure for salary advancement)
Actions to prevent discrimination in professional development and promotion processes
Actions to prevent discrimination during recruitment phase
Complaints procedure in place for employees to report on occupational health and safety issues
Actions to prevent noise exposure
Health care coverage of employees in place
Employee satisfaction survey
Compensation for extra or atypical working hours
Family Friendly programs (FFPs) implemented (e.g. parental or care leaves, childcare services or allowances)
Grievance mechanism on working conditions
Actions to ensure adequate wages
Collectively bargained wages
Employee health and safety emergency action plan
Employee health & safety risk assessment
Actions to control hazardous substance exposure
Training of employees on health and safety risks and best working practices
Employee representatives or employee representative body (e.g. works council)
Impact assessments identifying potential child labor, forced labor and/or human trafficking
Actions to prevent workplace harassment
Skills development program tailored to employee needs
Regular assessment of individual performance
Individual development and career plan for all employees
Actions to promote internal mobility
Actions to promote equal opportunities for all in the workplace
Actions to ensure equal pay for equal work
Grievance mechanism on discrimination and/or harassment issues
Employee resource or support groups open to all
Awareness training on discrimination and harassment
Training of employees on child labor, forced labor and human trafficking
Grievance mechanism on child labor, forced labor and/or human trafficking issues

Improvement areas

Low priority	No supporting evidence of actions regarding living wage
Low priority	No supporting evidence of actions to protect young workers
Low priority	No supporting evidence of actions to manage working hours and overtime
Low priority	No supporting evidence of age verification of candidates before hiring
Low priority	No supporting evidence of process to prevent the retention of employee identification documents
Low priority	Further develop your remediation procedure for identified victims of child labor, forced labor, or human trafficking
Low priority	Further develop your remediation procedure for victims of discrimination or harassment

Labor & Human Rights | Certifications

Impact on score ●●●○

● → 100/100

Certifications confirm your compliance with international standards (for example, ISO 14001, ISO 45001, ISO 37001, SA8000 or FSC Chain of Custody). They must be issued by an external certification body.

Strengths

Labor and human rights management system certification covers between 51% and 75% of the assessed scope
Specific labor or human rights certification
FSC chain-of-custody certified
ISO 45001 certified

Labor & Human Rights | Coverage

Multiplying factor

● 100/100

Coverage means the level of deployment of measures and certifications throughout your company. It’s a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

Strengths

Supporting documents show an exceptional level of coverage of labor and human rights actions or certification throughout company operations

Labor & Human Rights | Reporting

Impact on score ●●●○

● → 75/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

Reporting on the number of identified discrimination or harassment incidents or corrective actions
Reporting on ratio of the annual total compensation of the highest paid individual, to the median annual total compensation for all employees
Reporting on the percentage of direct employees paid below living wage
Reporting on the percentage of women employed in relation to the whole organization
External assurance or verification of sustainability reporting
Reporting in accordance with ESRS Set 1
Comprehensive reporting on labor and human rights issues
Report on average unadjusted gender pay gap
Company communicates progress towards the Sustainable Development Goals (SDGs)
Reporting on the percentage of employees from minority and/or vulnerable groups in the whole organization
Report on percentage of women within the organization's board
Materiality analysis in sustainability reporting
Reporting on number of recordable work-related accidents
Reporting on the percentage of women at top management level

Improvement areas

Low priority	No supporting evidence of reporting on the average hours of training per employee
Low priority	No supporting evidence of reporting on the number of days lost to work-related injuries, fatalities, and ill health

Protest against planned plant closure at Contitech [DE]

www.zeit.de | 12 Mar 2025

Employees at the Contitech plant in Bad Blankenburg staged a protest in front of the factory gates to demand the preservation of their jobs. Around 100 employees, as well as local politicians from the region, participated in the outdoor works meeting, said Kirsten Joachim Breuer, spokesperson for the IG BCE union, when contacted. "We want to preserve at least a large portion of the jobs and thus bridge a lean period in incoming orders." According to the union, 185 workers are employed at the plant.

The Price of Work: A Brief on Widespread Migrant Worker Recruitment Fees in Taiwan's Manufacturing Sectors

transparentem.org | 11 Feb 2025

In 2024, Transparentem investigators interviewed 22 migrant workers from Vietnam employed by four textile, electronics, and appliance suppliers in Taiwan. Our investigation found evidence of high recruitment fees paid by workers, in most cases requiring them to take loans, which put migrant workers at risk of debt bondage, which the International Labour Organization (ILO) has recognized as an indicator of forced labor. Transparentem found evidence of other labor abuses at one of the suppliers. From June to September 2024, Transparentem sent reports to the four manufacturers (see

OSHA accident investigation summary for Bestdrive, LLC's facility in Jacksonville, IL

www.osha.gov | 25 Aug 2021

At approximately 12:15 p.m. on July 30, 2021, an employee mounted a tire on a single-piece rim. The employee was attempting to seat the bead of the tire on the rim by inflating the tire, inside a tire cage. The employee removed the hands-free air chuck and checked the air pressure in the tire. The employee was standing outside of the trajectory, by the corner of the tire cage. As the employee was stepping back to grab the air chuck, the bead failed. The wheel blew out of the side of the cage striking the employee in the legs and fracturing the right tibia and a ruptured tendon in the left leg. The employee

Ethics

Impact on score ●●○○

● → 79/100

Ethics | Policies

Impact on score ●●●●

● → 75/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company’s intention to reduce impact, mitigate risk or improve performance.

Strengths

Formal mechanisms to review and amend ethics policy
Ethics policy scope of application specified
Detailed examples available regarding ethics issues
Dedicated responsibility for ethics issues
Policy on fraud
Comprehensive policies on ethics issues
Policies on corruption
Disciplinary sanctions to deal with policy violations
Policy on information security
Policy on money laundering
Policy on conflict of interest

Improvement areas

Low priority	No supporting evidence of employee signature acknowledgement of ethics policy
Low priority	No supporting evidence of quantitative target set on ethics

Ethics | Endorsements

Impact on score ●○○○

● → 100/100

Endorsements are your company’s public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Strengths

Affiliate or Supporter of the Responsible Business Alliance (RBA)
Endorsement of the Global Platform for Sustainable Natural Rubber (GPSNR)
Endorsement of the United Nations Global Compact (UNGC)

Ethics | Measures

Impact on score ●●●●

● → 100/100

Measures are your company’s actions to support your sustainability policies and commitments.

Strengths

Specific approval procedure for sensitive transactions (e.g. gifts, travel)
Corruption risk assessments performed
Anti-corruption due diligence program on third parties in place
Information security risk assessments performed
Whistleblower procedure for stakeholders to report information security concerns
Awareness training to prevent information security breaches
Whistleblower procedure for stakeholders to report corruption and bribery
Measures for gaining stakeholder consent regarding the processing, sharing and retention of confidential information
Training of employees on corruption and bribery prevention
Audits of control procedures to prevent corruption
Audits of control procedures to prevent information security breaches
Incident response procedure (IRP) to manage breaches of confidential information
Measures to protect third party data from unauthorized access or disclosure

Ethics | Certifications

Impact on score ●●●○

● → 75/100

Certifications confirm your compliance with international standards (for example, ISO 14001, ISO 45001, ISO 37001, SA8000 or FSC Chain of Custody). They must be issued by an external certification body.

Strengths

Specific certification on ethics

Improvement areas

Medium priority	No supporting evidence of ISO 27001 certification
Medium priority	No supporting evidence of ISO 37001 certification

Ethics | Coverage

Multiplying factor

● 75/100

Coverage means the level of deployment of measures and certifications throughout your company. It’s a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

Strengths

Supporting documents show a high level of coverage of ethics actions or certification throughout company operations

Ethics | Reporting

Impact on score ●●●○

● ↗ 75/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

Comprehensive reporting on ethics issues
External assurance or verification of sustainability reporting
Reporting in accordance with ESRS Set 1
Company communicates progress towards the Sustainable Development Goals (SDGs)
Materiality analysis in sustainability reporting

Tyre manufacturers’ cartel under scrutiny. Preparations for class actions begin

trans.info | 12 Sep 2025

Continental is among the world's largest tire manufacturers under scrutiny by the European Commission and US antitrust authorities for suspected price-fixing between 2016 and early 2024. The advanced antitrust investigation targets tires for various vehicles, including cars, trucks, and construction machinery. By 2026, the involved manufacturers could face multimillion-euro fines of up to 10% of their global annual turnover. In response to the alleged cartel activities, organizations like ELVIS and Best Speakers Cartel Consulting are preparing risk-free class action lawsuits. These actions

Continental Settles With Former Managers Over Diesel Scandal

newsguru.pk | 07 Oct 2025

Continental has reached a settlement with several former executives to resolve internal legal disputes tied to the long-running diesel emissions scandal. The agreement, which followed months of negotiations, covers compensation and legal cost arrangements, though specific financial details were not disclosed in the report. By settling, Continental aims to avoid prolonged court proceedings and refocus on innovation and electric mobility. While the company supplied engine components linked to manipulated pollution tests, it has denied direct involvement in developing defeat devices. Continental

Millions secured from automotive parts manufacturers price fixing allegations

www.myfloridalegal.com | 21 Dec 2022

Attorney General Ashley Moody secured more than \$13 million in an antitrust case against major automotive parts manufacturers. The funds come at the conclusion of an investigation against more than 60 manufacturers, including Continental. The investigation into the companies’ conduct found evidence of the manufacturers fixing prices and rigging contract bids. As a result of the companies’ actions, public entities paid more for vehicles needed for public services, including police cruisers.
